How to get verified in the Xbox Ambassadors Discord server

Announcements Taxel Apr 3, 2023

The Xbox Ambassadors Discord server now has an automatically assigned Verified Ambassadors role. This role and process make joining the server faster and easier for new members, reduce moderator + staff time needed to manually verify membership and assign roles, and help ensure that everyone chatting there has agreed to follow the Xbox Ambassadors Pledge in how they interact with others – the foundation of the safe, welcoming, and inclusive social experience we aim to provide for Ambassadors. Read on below for how to get verified and other relevant details.

Beginning in September 2023, we will require going through this verification process to read or chat in most of the server. Verifying your account will automatically assign you the Verified Ambassadors role in the Xbox Ambassadors Discord, and give you permission to view and chat in the appropriate channels. Unverified members of the Xbox Ambassadors Discord will be unable to view some channels or send messages until they complete the verification process using the steps below. Eventually, we may kick unverified members from the Xbox Ambassadors Discord so that every member of the server is a verified current Xbox Ambassador.

How to get verified:

1. Sign into the Xbox Ambassadors website [https://ambassadors.microsoft.com] and navigate to the Profile tab [https://ambassadors.xbox.com/profile]

2. Select Profile Tab and click the Discord header (on mobile you may need to click on “Overview” to open the drop-down menu where “Discord” will then be available).
3. Follow the instructions there to associate your Xbox Ambassadors profile with your Discord profile, and give the bot permission to do so.
4. The bot will verify that you’re a current Xbox Ambassador
5. You’ll find yourself redirected to the Xbox Ambassadors Discord server shortly
6. Upon joining the server, Xbox Ambassadors Bot will check that your Discord profile is connected to a verified Xbox Ambassador profile, and automatically assign you a verified members role if so.
7. If verified, you’ll find yourself in the server welcome experience. Complete the steps to begin chatting with your fellow Ambassadors.
8. If you haven’t yet been verified, you’ll find yourself in the same welcome experience, but won’t be able to begin chatting immediately. Visit the channel #member_verification for instructions on how you can get verified and unlock more permissions in the server.
9. Enjoy the Discord!

P.S. – if you have trouble following the steps above, you can use the Modmail feature to ask for help from mods and staff .

Why should I verify my membership?

We want to ensure that everyone who participates in our members-only server is currently a member of the Xbox Ambassadors Program. Choosing not to verify will mean eventually losing your ability to chat in the server.

Can I disassociate my Discord account from my Xbox Ambassadors profile after verifying?

Yes. Visit your Xbox Ambassadors Profile , navigate to the Discord header, and click where it says “click here to unlink my account”. This will automatically remove your Verified Ambassador role in the Xbox Ambassadors Discord and will disconnect your Discord account from your Xbox Ambassadors Profile.

Do I need to follow this process if I don’t use Discord or don’t want to be a member of the Xbox Ambassadors Discord server?

No, this process is only necessary if you want to chat in our Discord.
